

Arun Jayavelan

Senior Lead UI/UX Designer | Enterprise UX | Design Leadership

Hyderabad, India | +91 9686519905 | jayavelanarun85@gmail.com

LinkedIn: www.linkedin.com/in/arunjayavelan | Portfolio: <https://portfolio-arunjayavelanux.vercel.app>

Summary

Senior Lead UI/UX Designer with 10+ years of experience driving UX strategy, enterprise product design, and end-to-end experience delivery across large multinational organizations. Lead complex product initiatives spanning AIOps, DevOps Intelligence, infrastructure topology, enterprise inventory, and ServiceNow dashboards. Strong in **Design Leadership, Enterprise UX, UX Strategy, Cross-functional Strategy, User Research, Information Architecture, Interaction Design, Design Systems, Data-Driven Design, Prototyping, Usability Testing, Accessibility, and WCAG-aligned design**. Partner with Product Management, Architecture, Engineering, Program Management, and Delivery teams to transform complex enterprise workflows into intuitive, scalable experiences. Experienced in AI-assisted and agentic UX, data visualization, enterprise dashboards, and globally distributed stakeholder environments.

Experience

Senior Lead, UX Design

Kyndryl & IBM

Apr 2016 – Present

Bangalore, India

- Lead **UX Strategy and Design Leadership** across **5+ enterprise initiatives**, including Inventory 3.0, Infrastructure Topology, AIOps, DevOps Intelligence, and ServiceNow AIO dashboards, aligning product vision, user needs, technical constraints, and business objectives.
- Own end-to-end Enterprise UX delivery from discovery, workflow analysis, and User Research through Information Architecture, wireframing, Interaction Design, high-fidelity prototyping, usability validation, stakeholder alignment, and engineering hand-off.
- Partner with Product Management, Architecture, Engineering, Program Management, and Delivery teams across globally distributed organizations to define Cross-functional Strategy, resolve experience trade-offs, and drive design decisions from concept through implementation.
- Design AI-assisted and agentic experiences for complex enterprise operational workflows, translating high-volume technical information into discoverable, actionable interfaces and decision-support experiences.
- Lead Global User Research and usability studies using UserTesting.com to evaluate discoverability, comprehension, task success, data interpretation, and user confidence; convert qualitative and behavioral insights into iterative product improvements.
- Establish scalable **Design Systems, reusable UX patterns, interaction frameworks, and accessibility practices** to improve consistency across enterprise products and create a stronger foundation for engineering implementation.
- Produce production-ready Figma specifications, interactive prototypes, and Zeplin documentation; collaborate with engineers through design reviews, implementation validation, and continuous design-quality feedback.
- Facilitate executive and stakeholder reviews, UX demonstrations, validation workshops, and design sign-offs, creating alignment across product, engineering, architecture, and delivery leadership.
- Apply Data-Driven Design, usability heuristics, progressive disclosure, Jakob's Law, Fitts's Law, and WCAG-aligned accessibility principles to optimize enterprise workflows, dashboards, and complex information experiences.

Sales Enablement & Operations

IBM India Pvt. Ltd.

2013 – 2016

Bangalore, India

- Partnered with sales leadership on business analytics, revenue forecasting, pipeline management, executive reporting, win/loss analysis, and sales coverage reviews to support data-driven business decisions.
- Delivered automated reporting and customer-feedback insights that improved opportunity hygiene, stage compliance, forecasting processes, and visibility into sales execution.
- Collaborated across business functions to translate operational and customer data into actionable insights for leadership and planning.

Operations, Customer Support & Project Administration

Accenture | HCL | TCS | Oracle

2008 – 2013

Bangalore, India

- Delivered multilingual customer support, technical troubleshooting, incident resolution, and service desk operations for global enterprise customers.
- Supported IT infrastructure, enterprise applications, ticket management, escalation handling, and service request fulfilment while meeting SLA commitments.
- Provided Spanish-language technical support, translation, documentation, and customer communication for international clients and support teams.
- Coordinated cross-functional stakeholders, vendors, and support teams to ensure timely issue resolution and service continuity.
- Managed project accounting activities including invoicing, revenue tracking, forecast updates, timesheet validation, and financial reporting.
- Maintained process documentation, operational records, compliance requirements, and quality standards across business operations.

Selected Enterprise Projects

- AIOps & DevOps Intelligence:** Led UX strategy and designed AI-assisted enterprise workflows, interaction models, dashboards, and decision-support experiences for complex operational data and infrastructure scenarios.
- Infrastructure Topology & Inventory 3.0:** Led discovery, workflow analysis, Information Architecture, prototyping, usability validation, and developer hand-off for enterprise infrastructure and inventory experiences.
- ServiceNow AIO Dashboards:** Designed enterprise operational dashboards using Data Visualization, Interaction Design, progressive disclosure, accessibility principles, and scalable information architecture.

Skills

UX Strategy & Leadership: Design Leadership, Enterprise UX, UX Strategy, Cross-functional Strategy, Product Strategy, Stakeholder Management, Workshop Facilitation, Design Critique, Executive Presentations, Agile/Scrum

Research & Product Design: User Research, Global User Studies, User Interviews, Usability Testing, User Journey Mapping, Information Architecture, Interaction Design, Service Design, Design Thinking, UX Audits, Wireframing, Prototyping, High-Fidelity Design

Design Systems & Accessibility: Design Systems, Design Systems at Scale, Reusable UX Patterns, Interaction Frameworks, Accessibility, WCAG, Usability Heuristics, Progressive Disclosure, Responsive Design

Data, AI & Enterprise UX: Data-Driven Design, Product Metrics, Data Visualization, Enterprise Dashboards, AI-assisted UX, Agentic UX, AIOps, DevOps Intelligence, Complex Workflow Design

Operations & Service Delivery: Business Analysis, Requirements Gathering, Process Improvement, Workflow Optimization, ITSM, Service Delivery, Incident Management, Customer Support Operations, Vendor Coordination, Service Desk Operations, Operational Reporting

Tools: Figma, Figma Make, Sketch, Adobe XD, Zeplin, Miro, UserTesting.com, Microsoft Copilot, GitHub Copilot, Azure DevOps, Jira, Microsoft Teams, VS Code

Education

Bachelor's in Mathematics , Wesley Degree College Hyderabad, India	1996 – 1999
Advanced Diploma in Spanish , English and Foreign Languages University Hyderabad, India	1998 – 2001
